Polychromix choose Analytik Ltd as exclusive UK & Ireland partner

Biggleswade, Beds – Analytik Ltd are pleased to announce a new partnership to represent Polychromix, of Wilmington, USA; the leader in handheld NIR solutions.

Polychromix have revolutionised the Spectroscopy industry with the introduction of their exciting new MEMS based NIR analysers. Their innovative products enable the migration of traditional laboratory-based instrumentation from the lab to the point of need for fast, accurate, non-destructive material analysis; greatly reducing the cost of NIR in both installation and routine use.

Their flagship instrument, the revolutionary PhazIR™, is the first of its kind, handheld near infrared material analyser.

Ian Laidlaw, Managing Director of Analytik Ltd, believes the new partnership with Polychromix holds the company in good stead for the future;

"The PhazIR greatly complements our existing suite of innovative analytical instrumentation, offering particular synergy with our current high performance portable NIR offering from ASD. There is clearly a growing market demand for portable and now handheld material analysers and I'm delighted that Analytik are on their way to becoming the premier supplier of this exciting technology to the UK and Ireland."

The PhazIR™ was developed for a broad range of markets including; pharmaceutical manufacturing, counterfeit drug ID, polymer recycling, carpet recycling, feed ingredients analysis, explosives and narcotics detection, petrochemical analysis and asbestos screening.

To find out more about the PhazIR™, visit www.analytik.co.uk.
