Analytik appoints new Office Manager, Louise Powell, formerly of PwC

Cambridge, UK, 8th December, 2015: Analytik, leading suppliers of innovative analytical instrumentation, welcomes their new highly experienced employee.

Louise Powell has been appointed as the new **Office Manager**, taking complete responsibility for all operational, financial, administrative and logistical matters at Analytik. She joins Analytik from PwC (PricewaterhouseCoopers) and brings a strong background of relevant experience from a range of previous administrative, financial and team management roles.

Louise has a Diploma in Administrative Management and an LCCI Private & Executive Secretary's Diploma. Speaking about her new job, Louise says "I'm really excited to be joining Analytik at this important time in their development and I'm looking forward to getting involved with the systems and processes that will help drive the business forward. It's good to be joining such a great team."

"Analytik continues to move forward," says Managing Director, Ian Laidlaw. "Having a solid administrative, organisational and financial base lays fundamental foundations that will enable Analytik to grow and achieve its full potential. Louise's experience provides us with that professional base and her appointment is a key part of Analytik's ambitious plans for growth over the next 3-5 years."

The Analytik Ltd team wishes Louise every success in her role with the company!

About...Analytik are leading suppliers of innovative analytical instrumentation to the UK and Ireland. Delivering cutting-edge solutions from global technology providers, coupled with responsive service and flexibility has enabled Analytik to build an impressive customer base since forming in 2003. Analytik's partners include Agilent Technologies, ASD Inc.(a PANalytical company), SciAps, Microfluidics, Sentronic, GL Optic, Avian Technologies, GeSiM, CPS Instruments, Videometer, Headwall Photonics, Quantum Northwest and Schmidt + Haensch. Solutions include portable and handheld spectrometers (FTIR, NIR & Raman), spectral imaging systems, light measurement systems, reflectance standards and coatings, non-contact nanolitre dispensing systems, nanoparticle size analysers, high shear fluid processors, sample temperature control systems, polarimeters and refractometers.
